**Staff Lead:** Crystal Passi

**Division/Department:** Planning

**Level of Engagement:** Consult

**Project, Program, or Initiative Name:** Farwell Park Improvements

**Project Description (100 words recommended):**

This project intends to implement the first couple phases of improvements to Farwell Park identified in the parks recently adopted park plan as part of the North Service Area Master Plan. Engagement with the community in the summer of 2021 has helped focus the project towards determining what projects should be priorities in this first phase. Additional engagement through the fall and winter of 2021 with the community will help shape the design of the selected projects. This first phase of improvements would be implemented in 2022.

*This engagement grid was adapted from the IAP2 International Federation 2014 Public Participation Spectrum.*

**Justification (100 words recommended):** Please explain how your project meets the criteria in the Engagement Grid on pg. 2. Provide a justification for each criterion corresponding to the Level of Engagement that will guide your project.

The proposed improvements fall under the criteria of consult because the work involves work in a park that has been master planned as part of the North Service Area Master Plan. The public will need to help MPRB staff determine what the scope of work is for this phase of work and funding available and it is likely that the community will be a strong influencer in what projects happen first.

**For projects, programs, or initiatives that fall under the Inform category of engagement:** what are your planned methods for informing the public? (i.e. posting on a project website, GovDelivery email blast, flyer onsite, multi-lingual and/or graphic information) *You do not need to answer this question if you are completing a CE Plan.*

Posting on a project website, GovDelivery emails, onsite signage/info boards and multi-lingual and/or graphic information, social media, school newsletter updates, flyers and mailed postcards, Community Neighborhood Association email updates, and in person socially distanced open houses/events will be utilized. Additionally, on-site signage will direct community on where to comment and provide feedback and share concept plans. Concept plans will also be displayed at nearby Harrison and North Commons Recreation Centers.
