Each asset (bench, recreation center, playground, etc) within the park system has a lifecycle, or a period of time in which the condition of the asset allows it to be fully enjoyed by park patrons. To reach the full lifecycle of any one asset periodic improvements need to be made (replacement of roof, repair of a piece of play equipment, mechanical upgrades to a wading pool). The replacement date is the date in which the asset reaches the end of its lifecycle or useful life.
