Community Engagement Assessment

Please fill out this form if your project, program, or initiative includes community engagement. All Community Engagement Assessments should be filed as Petitions and Communications with the MPRB Board of Commissioners and submitted to the MPRB Engagement Portal on SharePoint.

Staff Lead: Jon Duesman

Division/Department: Design & Project Management, Planning

Level of Engagement: Inform

Project, Program, or Initiative Name: Lake Harriet Shoreline Repairs

Project Description (100 words recommended): Large segments of the existing Works Project Administration (WPA) wall along the western shoreline have degraded over the years creating unsafe and unstable conditions. While some wall segments appear generally still intact other segments are missing stones or have shifted and are leaning inward towards the lake. Continued degradation of the wall and erosion of soil behind the wall is compromising the integrity of the lake edge and adjacent regional trail system. This project seeks to repair and stabilize the shoreline in order to protect park infrastructure, improve habitat, and enhance water quality.

Review the criteria to determine the level of engagement that your program, project, or initiative falls under. Provide an explanation of how your project meets the criteria in the Justification section below.

Level of Engagement	Inform	Consult	Involve	Partner
Engagement Goal	To provide stakeholders with factual, accessible, balanced, and timely information to help them understand the project, program, or initiative.	To obtain stakeholder feedback on project, initiative, or program analysis, alternatives, or decisions.	To work directly with stakeholders throughout the process to ensure that perspectives are consistently understood, considered, and reflected in project, program, or initiative decisions.	To partner with stakeholders in each aspect of decision making in order to develop and implement collaborative project, program, or initiative solutions.
Criteria to Determine Level of Engagement (Which level of engagement best describes your project?)	<ul style="list-style-type: none"> This is a decision that should be based on technical, operational, or safety constraints only. This is a project, program, or initiative that does not result in a change in the type, location, or extent of the current facility or service. 	<ul style="list-style-type: none"> This project takes place in a park that has been master planned. This a new city-wide initiative or program. This is a new public policy or public policy update. The outcome is likely to change based on community input. 	<ul style="list-style-type: none"> This project requires a CAC. This project does not have other policy guidance such as an existing master plan or public policy. 	<ul style="list-style-type: none"> This program, project, or initiative is being developed in partnership with another agency or organization.
MPRB Promise	MPRB will keep you informed.	MPRB will keep you informed, listen to and acknowledge feedback, work to integrate stakeholder feedback into the alternatives, and provide feedback on how public input influenced the decision.	We will work with stakeholders for advice and innovation in formulating solutions and to incorporate recommendations to the extent possible.	The MPRB and partner entity will be accountable to their roles as negotiated in the partnership and regularly evaluate overall success of the partnership.
Examples of project types	Repaving a parking lot, cutting down a tree, beach or swimming pool closures, ADA improvements, rehab	Approved master plan design implementation, city or service area wide program development, public policy development, Participatory Project Scoping	Master plans, any process that includes a formal public body making recommendations.	Jointly owned and/or operated facilities, co-creation, public/private partnership, community led projects.

This engagement grid was adapted from the IAP2 International Federation 2014 Public Participation Spectrum.

Justification (100 words recommended): *Please explain how your project meets the criteria in the Engagement Grid on pg. 2. Provide a justification for each criterion corresponding to the Level of Engagement that will guide your project.*

Community Engagement Plans are not required if the project results in no change in type, location, or extent of the current project, or if the project is a technical, safety or operations-based decision. The overall nature of this project is technical with the primary goal of stabilizing and repairing the existing WPA wall to protect it and adjacent park infrastructure.

For projects, programs, or initiatives that fall under the Inform category of engagement: what are your planned methods for informing the public? (i.e. posting on a project website, GovDelivery email blast, flyer onsite, multi-lingual and/or graphic information) *You do not need to answer this question if you are completing a CE Plan.*

Multiple methods will be employed to inform the public on this project. A project page will be set up on the MPRB's website with key information about the project. We also plan to reach out to local organizations and neighborhood groups such as the Linden Hills Neighborhood Council, so they are aware of this project and keep them informed along the way. Visual aids will be created to help show the proposed repair strategy and be available on the Project Page for the public to view.
