

Elmer Says...

Wood from trees can be used for many things!

Not only do trees clean the air, provide shade, and give homes to animals, their wood can be used in many ways, too!

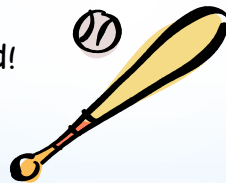

Wood from trees can be used to build houses and furniture!

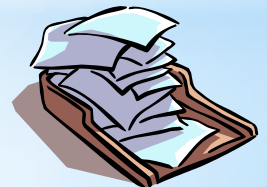

Wood can also be used as firewood to heat homes!

Baseball bats, hockey sticks, and sleds can all be made from wood!

Wood is used to make many different kinds of toys!

Books and paper are both made out of wood!
