Jan, 2019 choice of workshops  Jul 25, 2019, Pershing Park  Jul 11, 2019, Lynnhurst Park

1. Welcome, introductions, ground rules, grounding exercise, and project to date

2. Nomination and vote on representatives to Lynnhurst subcommittee

3. Discussion of SWsamp guiding principles
   - CAC discussion
   - Comments from the general public

4. Overview of proposed method for discussion and recommendation

5. Sorting of parks
   - Each preferred concept will be described briefly by MPRB or SRF staff
   - Staff will share any online comments received on the concept
   - CAC and members of the public will suggest whether the concept:
     o Warrants further discussion
     o Has consensus toward recommendation
   - Once that decision has been made, we will move on. Detailed discussion of park concepts will take place later or at a future meeting.

6. Overall Balance
   - Single-use Facilities (bike parks, tennis/pickleball, basketball)
   - Fields and diamonds (to be discussed after second subcommittee meeting): Kenny, Armatage, Pershing, and Linden Hills

7. Discussion of Parks
   - Each park slated for further discussion will be raised for discussion, ideally in this order:
     o Mueller
     o Kenwood
     o Parade
     o Parks in the fields/diamonds/ice balance group: Kenny, Armatage, Pershing, Linden Hills
     o Lyndale Farmstead
     o Smith Triangle
     o If time allows: Whittier, Washburn Fair Oaks and Clinton Field
   - CAC members will discuss each park and public attendees will have time to provide new comments
   - Staff will seek specific guidance from the CAC:
     o There is agreement on the concept, move to consensus
     o The concept is close, with minor modifications, and doesn’t need to be viewed again
     o The concept requires modification and should be brought back to the CAC for further discussion
     o The concept is way off base, should be re-worked & brought back for further discussion
     o Other guidance
