THEME: BUILT/NATURAL

Comments	Theme : Built/ Natural
<i>Natural (+)</i>	
Designed vs. natural water front: I personally prefer natural, but would be supportive of something well-designed that would create pride and attract tourists. I don't think people recognize how wonderful it is to live near the Mississippi.	Natural (+)
Prairies	Natural (+)
Natural shoreline and touch the water places	Natural (+)
How can the park at UHT best benefit the community?: Nature experience for city residents and city visitors	Natural (+)
Add wildlife habitat (prairie!)	Natural (+)
More native landscape and habitat	Natural (+)
Favor river restoration OVER (added) infrastructure (save \$\$ forever)	Natural (+)
Provide lots of acres of natural habitat	Natural (+)
(Points to light green furthest north in the plan) Returning any shoreline to natural vegetation?	Natural (+)
Lots of Native Landscape (Following the Park Reserve formula- 20% development and 80% natural)	Natural (+)
Designed vs. natural water front: Natural elements should be included but contained. I just don't feel naturalization of the area is practical. If the area is going to support a large scale music venue, you don't want a huge crowd trampling through a restored natural setting.	Natural (+)
I love seeing the river in its natural state. I have canoed the river and would possibly do more of that in the future, but I would mainly like to see the wild byway aspect of the river enhanced.	Natural (+)
Better access to the river. Better access to passive green space.	Natural (+)
Designed vs. natural water front: Waterfront access in a mainly natural environment	Natural (+)
See wildlife in the river. Have a healthy river.	Natural (+)
Preferred experience of the river: Energetic spaces for fun and quieter, natural spaces for relaxation.	Natural (+)
Natural	Natural (+)
In its natural state. no concrete, no large group spaces	Natural (+)
Preferred experience of the river: I think the emphasis should be on keeping the atmosphere natural. Nature should be the emphasis; the food venue should be a comfortable shawl to the experience and an ambience where you just want to stay the whole day and gaze out at people walking past.	Natural (+)
Preferred experience of the river: See previous answers. I want to experience it visually and naturally, but we have such limited access in northeast Mpls to this now. Don't ruin this site completely.	Natural (+)
Designed vs. natural water front: primarily natural, with small areas for fishing, paddel board and kiyak launching. keep the boat launch by the Camden bridge.	Natural (+)
It is my community. I'm interested in returning it to a natural place, and a place for the people - the commons.	Natural (+)
I envision wild riverfront areas	Natural (+)
Designed vs. natural water front:70/30 in favor of natural waterfront areas.	Natural (+)
Designed vs. natural water front:Whatever will work - designed will bring more people to the river - but not over built - You do need pockets or a decent size area for that natural feel that we are close to nature	Natural (+)
Q16. Depends on what you offer, as outlined in previous offers. If you make it more green/natural/rivercentric and less concert venue, I would use it often since it would be close and easily accessible from my house.	Natural (+)
Walks in the Park along the river. Nature in the urban area,	Natural (+)
Designed vs. natural water front: Balance is good - as long as there is an access point, natural water front is wonderful.	Natural (+)
It would be cool to have a stage space with designed water front buffered on either end by natural areas.	Natural (+)
Designed vs. natural water front: Natural, with just enough "design" to make it accessible. Yes, think "individual experiences." Something one or a few people would do on their own, a nice activity, not "group venue" for making money for private enterprise.	Natural (+)
What will the impact on wildlife be when you build this? Wildlife needs to be protected. This is shaping up to be a huge mistake that we'll all regret in about five years. It should be about greenery, wildlife, the river -- not money, money, money for a CONCERT promoter!!!!	Natural (+)
Id like access in a natural environment to protect the health of the river. Keep back erosion naturally.	Natural (+)
There should be a boundary of a natural edge to preserve the river banks.	Natural (+)
some other recreational uses as appropriate for the environment, and a concerted effort to protect the Mississippi wildlife byway.	Natural (+)
Interest in UHT: Creation of public connections to the riverfront, creation of natural connections of North Minneapolis to the river and to downtown along the river corridor.	Natural (+)
Interest in UHT: I am a taxpayer and resident in a congested city that needs quiet green/nature space as respite.	Natural (+)
Interest in UHT: Lover of nature	Natural (+)
Upper Mississippi Regional Park! The biggest factors making this area of the river successful is nature and the access that people have to the river via bike and walking paths. I personally use the paths multiple times a week; mostly for biking. When my children were little we would go to the playground, interpretive center, wading pool and picnic grounds near 49th Ave. This park is very popular for all of these amenities, and people like to come to this park for the amenities, especially because they feel like they are in a wild area outside of a city environment. Children can see and learn about wildlife, plants and more. It is not unusual to see Eagles and other wildlife.	Natural (+)
Areas closest to river should be reserved for people/nature versus cars further from the river	Natural (+)
make sure that the project is specifically considering native plants combinations that will support wildlife and insects	Natural (+)
Prioritize protection and enhancement of lands within the Mississippi National River and Recreation Area. "Our primary priority for the site is to retain public ownership of the riverfront, make it accessible through trails and recreational amenities, and to restore as much of the shoreline as possible"	Natural (+)
It is important to improve the health of the river – wild space – no chemicals /pesticides	Natural (+)
Focus on the river; hydrology, ecology, habitat, nature. Back off from the river as much as possible and restore it's natural functioning as much as possible.	Natural (+)

Comments	Theme : Built/ Natural
Needs stronger park-like/ecological connection to river, connection seems more like an urban edge.	Natural (+)
some lawn but NOT all green-watered-mown lawn;	Natural (+)
I think that there needs space for a nature area	Natural (+)
Opportunity for solitary peaceful reflection is a very important aspect of natural spaces.	Natural (+)
natural spaces for birds	Natural (+)
Need to make sure the park land protects from erosion and contains native species.	Natural (+)
(Future phases) River front restoration. Leave it alone. I agree with the parking if the other buildings are added but other than that leave it be.	Natural (+)
The plan should be park/river restoration based	Natural (+)
Strive to integrate organizing principles of ecology	Natural (+)
The native landscape the way it would be without modern human development should be represented in what lives there and the way the park looks.	Natural (+)
Make more native landscapes	Natural (+)
Native planting areas to create pollinator habitat.	Natural (+)
natural prairie	Natural (+)
Restored prairie maybe.	Natural (+)
pollinator gardens	Natural (+)
preservation of wildlife	Natural (+)
When it's time to build, let natural systems and resources be the lead factor in determining functionality of built environment - human use should incorporate sustainably and with climate consciousness guiding all decisions.	Natural (+)
Nature, sunset, green space (55345)	Natural (+)
I like green space instead of hardscape. (55412)	Natural (+)
a safe, clean, natural place for children and their families	Natural (+)
Replace seating/viewing nodes with more garden space, pollinator species patches.	Natural (+)
(Southern half of the site)Leave as open green space.	Natural (+)
A park to me is green open space with room for trails, nature, sport area, grilling and BBQ area, tables, trees for shade, and water incorporated in some aspect so maybe a small pond or waterfall.	Natural (+)
Prioritize green infrastructure and park/trail along the river, increase natural shore of the river integrated with "stormwater systems" that clean the water. What is the carbon impact of all of this development?	Natural (+)
I would like to see more land set aside for park, wildlife, green space, and access to the river.	Natural (+)
Balance recreation (sports fields/courts/skatepark) with natural landscapes.	Natural (+)
Also, what will you do about noise control? This needs to be a primary consideration. People live within the area and across the river. What proof/analysis have you done that the noise won't carry? What is wrong with smaller-scale venue, or better yet -- none at all and a focus on nature?	Natural (+)
Leave it just park for a while - let people access organically	Natural (+)
More park land. Start over with more time to plan Real Park, maybe back to a savanna the same that was here before "white men" f***ed it up!	Natural (+)
Site should dedicate more area to park and open & wild space.	Natural (+)
I would like to see more space dedicated to park, natural areas, open space. I think for such a large area, more should be natural park space.	Natural (+)
a safe, clean, natural place for children and their families	Natural (+)
Love the storm water, erosion, native plant incorporation	Natural (+)
Solar/green energy uses/space for recycling/compost initiatives, garden space around parking (southern half of the site)	Natural (+)
Designed vs. natural water front: How about designed to perform in an ecologically-beneficial manner? Why even bother with the word 'natural' when we can design something better? To take your question in the spirit in which it was asked, though -- maintain an even balance over time as more and more people A) move to the area, and B) are able to access the waterfront. Initially more 'natural' (lots of remediation to do, I'd imagine), transitioning toward 'designed' as it becomes integrated into the life of the city.	Natural (+)
make eagle habitat. Plant big tall oak trees along the river. Eagles will totally make that place come alive.	Natural (+)
Would love to see large areas of tree/shrub/perennial plantings vs. turf areas.	Natural (+)
native plants	Natural (+)
please incorporate as many trees as possible with LESS HARDSCAPING.	Natural (+)
Enjoy trees and natural spaces	Natural (+)
Trees & gardens (55447)	Natural (+)
Native grass and nature. Fruit trees and berries to pick and enjoy... (55412)	Natural (+)
<i>Natural (-)</i>	
To be realistic, think half green boulevards along walls and half paved to the water. In North, a natural river edge will be polluted and unsafe. We have this in N. Mississippi Regional park and between the mosquitoes and pan handlers, it doesn't work.	Natural (-)
An up river kayak launch seems like a good offering but I don't think it's practical to try to restore some sort of natural setting to an area that has been industrialized for more than a century. Pavement promenades, piers, fishing decks, steps to the water, with clear pedestrian and cycling areas and connections up and down river that would connect to more natural segments, makes more sense to me for a high utilization destination.	Natural (-)
I think this is not the area where the waterfront should be all or mostly "back to nature" with marshes, sloughs, reeds, etc. That is more fitting for UMRP which is nearby and is overall quite "back to nature".	Natural (-)
There is too much park land. The strip along the River should be no more than 50 ft. wide. The rest of the unneeded park land should be used for commercial development.	Natural (-)
We (Northsiders) want the same things that people in other parts of Minneapolis want - beautiful spaces, access to the water, places to eat... an all-naturalized space (like in the Above the Falls master plan) is not ok	Natural (-)

Comments	Theme : Built/ Natural
<i>Built (+)</i>	
Adult exercise equipment, library, crafts (55412)	Built (+)
Restaurant, concessions and/or food trucks	Built (+)
Interest in UHT: Live nearby, want more access/parks/affordable housing on north side	Built (+)
River related activities boat, swim, fish, river enhanced activities, restaurants, hotels, boats rentals, bike rentals	Built (+)
Designed vs. natural water front: Designed would be great but there should be waterfront activities - fishing areas, boating areas, etc. similar to hidden falls area	Built (+)
Designed vs. natural water front: Smaller natural areas close to amenities to the designed areas. More designed than natural though.	Built (+)
If there is a way to balance this with natural experiences of the river, great. With the very industrial nature of that area now, designing a more urban experience seems more feasible than trying to restore a natural setting.	Built (+)
Preferred experience of the river: Dining, entertainment.	Built (+)
We need more dining establishments with a view of the river, with boat access.	Built (+)
Designed vs. natural water front: This area should be more "designed". NMRP is the one that should have the "natural areas".	Built (+)
Permanent restaurant that draws a crowd similar to Sea Salt or Tin Fish in South Minneapolis along with food trucks or casual cafe with food for before and after shows.	Built (+)
As rule I like natural, but this area may be better suited to a designed area because of its industrial past. Would be interesting to tie in the old with the new.	Built (+)
Restaurants, bike paths, music, and a farmers market would bring me to the Upper Harbor roughly 4 to 5 times a month in the summer and 1 -2 times a month in the winter.	Built (+)
Designed vs. natural water front: Designed	Built (+)
Designed vs. natural water front: I think a more designed area is probably more realistic. And I think bring more of the northside community together in the same space could be positive as well.	Built (+)
A mix of casual environment and urban edge. The riverfront is already full of "natural" environmental edging, and very few places where there is an urban edge to the water.	Built (+)
Casual cafes and takeaway food counters with perhaps one destination restaurant.	Built (+)
(Star below the food truck) (Star below the last image) Restaurants and cute lights	Built (+)
Interest in UHT: North Minneapolis has always been treated poorly by the city government and almost never received any attractive development. This is a chance for the city to finally give attractive development to the Northside. It would be great to be able to go to things on the Northside and not have to go everywhere else in the metro. It would also bring others to the Northside, which in turn would help revitalize the Northside	Built (+)
restaurants, parks, and water are always a good combo	Built (+)
Being able to be on the river - restaurant would be #1 choice, boat rental #2	Built (+)
There should be a wide range of food services ranging all the way from food carts or walking vendors for events to destination restaurants. There could be space for food carts not far from river and restaurants farther back ranging from low price to "destination" types. I am not sure whether I would want food trucks. Places like Sea Salt could be near riverfront with fancy sit down white table cloth restaurants farther back.. It is important to have foods from a wide variety of cultures because the Northside and nearby areas have such diversity. Hopefully we will have some high end housing near the rear of the area behind the public areas and they could support destination restaurants as long as there are people from other areas that also come.	Built (+)
Multi-use recreation-all seasons.	Built (+)
Music bandshell or amphitheater	Built (+)
A permanent stage with open fields might provide the best bang for the buck as more than just music can utilize the space (state of the city speech, private events) while still maximizing the available green space.	Built (+)
All of the above - We do need permanent stages with open fields to draw people not only to the river but to the hopefully restaurants that will be there - to support the businesses. We need all types of music to draw all types of people and different age groups	Built (+)
Community garden	Built (+)
Community garden	Built (+)
My proposal is to build an amusement park and have it operated by local young people	Built (+)
Art studios	Built (+)
Conservatory to provide natural beauty year-round	Built (+)
Interpretive center	Built (+)
Recreational things like courts	Built (+)
Community Centers	Built (+)
would like a community center	Built (+)
would like a community center	Built (+)
an athletic/rec center would be cool for the community	Built (+)
I like that there will be a community room.	Built (+)
a place to play basketball indoors and outdoors (there's no place to play in the winter)	Built (+)
rec center throughout the winter	Built (+)
More rec centers (55412)	Built (+)
Will there be a Rec. Center?	Built (+)
There's not much for teens to do but some type of community center would be perfect (55412)	Built (+)
A good rec building with utilities that you could rent out	Built (+)
recreation center	Built (+)
Arcade, wifi, rec. center, burrowed (?) vending, better lighting machine (?), better bathrooms (55412)	Built (+)
public restrooms	Built (+)
Priorities: ample bathrooms	Built (+)

Comments	Theme : Built/ Natural
Water fountains, actual clean and safe bathrooms	Built (+)
public bathrooms	Built (+)
I think we might be able to support a second rowing club location. I'd like to see waterfront access in a casual environment. I always prefer a natural environment, but I don't think this is the place for it. I'd go along the neglected trails near St. Anthony Main for a little of that.	Built (+)
The [Lao] community is also looking for places to host family reunions or cultural gatherings. They'd prefer to have an indoor facility that can be rented, such as a pavilion or a shelter. They would be okay with a place that is sheltered but not fully enclosed.	Built (+)
Preferred experience of the river: Walking, eating, people watching, having a beer. If bars & microbreweries in the "zone" could sell compostable to-go cups which must be emblazoned with the park logo, purchased through city ~ it could increase popularity while still limiting alcohol.	Built (+)
community gardens to grow plants that can nourish people with food and medicine	Built (+)
<i>Built (-)</i>	
The entire UHT should be park...no development would be proposed	Built (-)
More natural areas, less built env. UNDEVELOP	Built (-)
Personally, I'm not looking forward to a flashy, high use area along the river. I would hope that the area would remain park like, and not built up with homes, large restaurants or other commercial venues.	Built (-)
Interest in UHT: I live and work in 55412. Also, it's an awesome river and I hate how industrialized it is around here.	Built (-)
I think the most important thing to do with this area is to protect the river environment and return as much of the river to a wild state as possible. I hope it does not become the location of high priced housing for a few, but rather a beautiful riverfront that is accessible to all people.	Built (-)
this is not an area whose purpose is to fulfill what they want for a neighborhood park for the Northside. If amenities are needed in Northside parks for people living in our neighborhoods, those amenities absolutely should be provided but not in this very unique area. (Not the place for courts and fields)	Built (-)
Too much infrastructure . It needs more green park space...	Built (-)
There is excessive paving in this concept, would like to see less roads/parkway and less hardscaping.	Built (-)
I would like to see the dedicated park space greatly expanded in the large area on the southern half of the site that is currently set aside for future development. While the temptation to encourage revenue-earning development is always present, this site gifts us a rare opportunity to gain an incredible community asset. Aside from those near Theodore Wirth Park on the west end, most north Minneapolis residents have little green space in comparison with other parts of the city, yet stands to gain a premium park through this redevelopment effort. With the UHT, we have a chance to turn a large swathe of precious riverfront land into a beloved community space in which to congregate and recreate out of doors, and without cost, in an area that has been neglected and even excluded outright throughout the city's history, and I would hate to see that chance give way to a more imposing built environment along the river.	Built (-)
MORE PARK!, more green, less concrete (P1-1)	Built (-)
More park space = less development revenue	Built (-)
Prioritize green space over infrastructure	Built (-)
Picture of all park with road and parking to mushroom building. Bike loop and pedestrian walk along the river and otherwise all green space	Built (-)
I'm a little disappointed that only 15 acres out of the total 48 is going to be park land. I don't think that is enough green space and I worry about the environmental impact of all the development.	Built (-)
All along the river should be open space, parkland and recreation (not heavily structured)	Built (-)
More park, less development	Built (-)
A simple park with a trail along the river, open fields for soccer or other sports, and restrooms would be the best use of this land. Please don't clutter it with large buildings that will remain mostly empty and fall into disrepair.	Built (-)

THEME: LOCAL/REGIONAL

Comments	Theme : Local/ Regional
<i>Local (+)</i>	
How can the park at UHT best benefit the community?: Host wildlife	Local (+)
Diversity – events that bring different races and cultures together	Local (+)
Even if events/programs are free, the cost to park in some regional parks is a barrier to attendance	Local (+)
Interest in UHT: North Minneapolis has always been treated poorly by the city government and almost never received any attractive development. This is a chance for the city to finally give attractive development to the Northside. It would be great to be able to go to things on the Northside and not have to go everywhere else in the metro. It would also bring others to the Northside, which in turn would help revitalize the Northside	Local (+)
More family oriented, small, local mobile food stands or smaller ethnic food choices.	Local (+)
Affordable for the folks in the neighborhood. Specialty restaurants using local produce. For sure, do not get rid of the Mississippi Mushroom production, but expand on the product. A mushroom restaurant. A combination of sit-down restaurants, take-out and food trucks. Fresh, healthy foods...no State Fair fried food junk foods. Ethnic foods representing the people who have lived in North Minneapolis...the diversity of the neighborhood should be represented.	Local (+)
Interest in UHT: It's close to my home and would make a great new area for community engagement	Local (+)
Farmers markets and art markets. Maybe moving the Camden Farmers Market east and expanding it? Local producers.	Local (+)
Local theatre groups, etc. A scheduled rotation such as at Lake Harriet	Local (+)
Local artists	Local (+)
We have Target Center, Target Field, US Bank Stadium, TCF Stadium, Saints Stadium for the big music venues. We do not need another. We need something that would be affordable for the folks living in North Minneapolis not expensive things that only those living in the suburbs can afford. Think ALIVE ON THE DRIVE mentality not blockbuster. Think HARRIETT BAND SHELL.	Local (+)
Think ROCK THE GARDEN. More small events with variety. Green space, small restaurants. Locally grown produce, healthy choices. Mississippi Regional park could have a southern annex...and this could be the space.	
A rec center would draw people and invite park use by diverse people. Would like a big athletics focus. Theo Wirth is not working for the community and is not at the heart of the community.	Local (+)
When people go there, it should be a place they can see themselves in	Local (+)
The park should focus on providing public riverfront access to people currently living on the Northside. More green space and trails are the best use of this land.	Local (+)
Music/art events can start on the site in its current state w/minimal site improvements to build community buy-in and participation. The first Jamming for Justice was put together very quickly by a dedicated group, and was very successful and positive.	Local (+)
Priorities are that it is clean, healthy, family and friend-friendly. I wish we had a cleaner/healthier community! and that people actually cared. / Concerned about violence (55411)	Local (+)
Food about the local culture (55411)	Local (+)
Local garden (55411)	Local (+)
Local garden (55411)	Local (+)
Would like to see the UHT be a place for local food business to profit by having a space that works well for them. She'd also prioritizes natural foods and likes the idea of a "process-free zone" (55405)	Local (+)
Use park/other things to do there: picnic, family events, eat, swim, local artists	Local (+)
Public park of any kind could be good as long as it works for existing community members.	Local (+)
Best for N.Mpls/what would draw you: family-oriented	Local (+)
Best for N.Mpls/what would draw you: the feel of river, bluegrass, jazz, yoga	Local (+)
What would make it best for North would be live music, local artists, flower garden, and history. (55443)	Local (+)
More community activities, to involve everyone on the Northside.	Local (+)
Something that shows the local support for the arts would be welcomed. Including students from Perpich Center for the Arts and MCAD in the creation would be great. Showcasing the beauty of appropriate and sustainable landscaping along the river would also be great. Involving the Arboretum for that would make me proud.	Local (+)
<i>Regional (-)</i>	
(Points to docked boats) I don't know many, if any working class neighborhood residents who own boats! (or would have a license to rent) This reeks of gentrification!	Regional (-)
No blue rooster, place for kids w/ disabilities, better water, fountain seating	Regional (-)
<i>Regional (+)</i>	
Park destination	Regional (+)
Designed vs. natural water front: I personally prefer natural, but would be supportive of something well-designed that would create pride and attract tourists. I don't think people recognize how wonderful it is to live near the Mississippi.	Regional (+)
I live close to it in North. I want to clean up the riverbanks and remove the heavy industry, bring a vibrant riverfront to be enjoyed by many not a dead at night business park, a destination riverfront that brings people in from all over could greatly benefit the people of North	Regional (+)
I enjoy the eateries at Minnehaha Falls, Calhoun and Lake Harriet, but I'd love to see something more upscale on the river. A place to take visitors and show them the Mississippi, without standing in line.	Regional (+)
This new development should draw people from all over to come and spend their money and enjoy the Northside special events like city-wide composting kick off parties, or a city-sponsored treasure hunt	Regional (+)
Park space similar to Chicago's Millennium Park	Regional (+)
Interest in UHT: North Minneapolis has always been treated poorly by the city government and almost never received any attractive development. This is a chance for the city to finally give attractive development to the Northside. It would be great to be able to go to things on the Northside and not have to go everywhere else in the metro. It would also bring others to the Northside, which in turn would help revitalize the Northside	Regional (+)

THEME: PUBLIC/COMMERCIAL

Comments	Theme : Public/Commercial
<i>Public Facilities/Activities</i>	
Diversity – events that bring different races and cultures together	Public Facilities/Activities
Fishing piers- for folks who don't home boat	Public Facilities/Activities
Bring different cultures in pos. way	Public Facilities/Activities
Free fitness boot camp for community members with childcare	Public Facilities/Activities
Family events	Public Facilities/Activities
Make sure the poor and minority communities have a place	Public Facilities/Activities
Multi-purpose for cultural events	Public Facilities/Activities
More chances to get on the water for people who don't have their own boats.	Public Facilities/Activities
Having activities to participate in	Public Facilities/Activities
Diversity would bring me to the riverfront	Public Facilities/Activities
A safe place everyone	Public Facilities/Activities
Park land for all	Public Facilities/Activities
Personally, I'm not looking forward to a flashy, high use area along the river. I would hope th the area would remain park like, and not built up with homes, large restaurants or other commercial venues.	Public Facilities/Activities
It is my community. I'm interested in returning it to a natural place, and a place for the people - the commons.	Public Facilities/Activities
Interest in UHT: Creation of public connections to the riverfront, creation of natural connections of North Minneapolis to the river and to downtown along the river corridor.	Public Facilities/Activities
Larger inclusive use!	Public Facilities/Activities
Interest in UHT: Hoping tax resources used in community spaces that are truly used 24/7.	Public Facilities/Activities
Space for schools or businesses to rent or open space for relaxation.	Public Facilities/Activities
Classes, workshops, meetups. Craft Fairs. We do not need big venues.	Public Facilities/Activities
Food festivals, pop up events, gathering, job fairs, cultural fairs....so many options.	Public Facilities/Activities
Let schools and parks use for practices (rehearsals)	Public Facilities/Activities
Q16. Movies in the park, concerts, restaurant, giant games (e.g. capture the flag), cooking classes, pottery like in Powderhorn, etc.	Public Facilities/Activities
special events like city-wide composting kick off parties, or a city-sponsored treasure hunt	Public Facilities/Activities
There are all types of get togethers for wide ranges of people (such examples as Star Trekers, robotics, the possibilities are endless). Some would attract me and other s wouldn't. And itwould be other things that would attract others and not me. I would go 1 to 3 times a weekdepending on the attractiveness of what was going on	Public Facilities/Activities
Programming for different ethnicities	Public Facilities/Activities
Prioritize protection and enhancement of lands within the Mississippi National River and Recreation Area. "Our primary priority for the site is to retain public ownership of the riverfront, make it accessible through trails and recreational amenities, and to restore as much of the shoreline as possible"	Public Facilities/Activities
When people go there, it should be a place they can see themselves in	Public Facilities/Activities
Making space for all communities (cities/neighborhoods, etc) to reconnect with the natural and historic waterways within the communities needs to be a priority.	Public Facilities/Activities
More green space and draws for use, for example skateboard park, whatever, to draw people out not house people, making the land private.	Public Facilities/Activities
Create Public boat slips. Kayak lockers or some soft of way for kayakers to temporarily store their kayaks while enjoying UHT	Public Facilities/Activities
this is part of the Mississippi National River and Recreation Area / National Park Service. This aspect should be embraced as a public amenity.	Public Facilities/Activities
public outdoor space	Public Facilities/Activities
No corporate naming rights, please! Stop selling your soul.	Public Facilities/Activities
(southern half of the site) Areas for farmers markets and art shows and craft fairs. Anyway to help the local community members share their talents and art and other work and an opportunity to sell that for extra income.	Public Facilities/Activities
Public parks, walking trails (55411)	Public Facilities/Activities
ethnically diverse events.	Public Facilities/Activities
Community events	Public Facilities/Activities
Space to hang out with family, park with fun activities (55412)	Public Facilities/Activities
community park	Public Facilities/Activities
Want to see a place to bring the community together	Public Facilities/Activities
I would like for this to bring my community together to have fun	Public Facilities/Activities
Public park of any kind could be good as long as it works for existing community members.	Public Facilities/Activities
eco-friendly with the river, finding ways for people to help keep the environment clean.	Public Facilities/Activities
outdoor family events	Public Facilities/Activities
Cooking classes and demos, and a market. Things happening during the day	Public Facilities/Activities
Public space for everyone, space for outdoor dance classes, year round sports field. Indoor & outdoor for football. (55458)	Public Facilities/Activities
Keep the space available to all groups (55345)	Public Facilities/Activities
Programs, cooking, nutrition (55447)	Public Facilities/Activities
Access to more open programmable public space.	Public Facilities/Activities
Accessible, diversity, open to everyone	Public Facilities/Activities

Comments	Theme : Public/Commercial
I'd like a space where you can just relax: anyone of any culture or religion, they can hang out and feel at home. (55404,55408,55401,55411,55306)	Public Facilities/Activities
I would like to be able to have events and bar-b-ques	Public Facilities/Activities
More community activities, to involve everyone on the Northside.	Public Facilities/Activities
<i>Commercial Facilities/Activities</i>	
Create a youth run bicycle shop!	Commercial Facilities/Activities
Restaurant, concessions and/or food trucks	Commercial Facilities/Activities
Night market great area close to downtown	Commercial Facilities/Activities
River related activities boat, swim, fish, river enhanced activities, restaurants, hotels, boats rentals, bike rentals	Commercial Facilities/Activities
Permanent restaurant that draws a crowd similar to Sea Salt or Tin Fish in South Minneapolis along with food trucks or casual cafe with food for before and after shows.	Commercial Facilities/Activities
(Star below the food truck) (Star below the last image) Restaurants and cute lights	Commercial Facilities/Activities
This a river not a lake. I see limited use for people to get into or out of the water perhaps canoe Kayake launch I envision a strip of land next to the river to walk bike etc. with a casual environment I don't see a space for large groups of people to gather A boat dock for people to park their boats for the season with small scale retail to support the families park their boats	Commercial Facilities/Activities
canoe/kayak rental	Commercial Facilities/Activities
What about something completely different like access to kayaks? Kayaking for novices. Or small excursion boats that for pay would take people out on the river who do not feel comfortable going out on their own on the river due to currents? How about a river/water experience for city people who don't get down to south Mpls? Make us feel a connection to the river.	Commercial Facilities/Activities
More family oriented, small, local mobile food stands or smaller ethnic food choices.	Commercial Facilities/Activities
All of the above - We do need permanent stages with open fields to draw people not only to the river but to the hopefully restaurants that will be there - to support the businesses. We need all types of music to draw all types of people and different age groups	Commercial Facilities/Activities
Interest in UHT: It's close to my home and would make a great new area for community engagement	Commercial Facilities/Activities
As mentioned above, the city could use it to kick off events, corporations could rent it out for staff parties/events, and programming for city youth during the summer could be centered out of there with a focus on arts and entertainment.	Commercial Facilities/Activities
Pool barge, a bar barge	Commercial Facilities/Activities
A bicycle shop, a fountain,	Commercial Facilities/Activities
Food hub, bike shop, a mini market to buy fruits and chips and etc. (55411)	Commercial Facilities/Activities
The farmers needs to be the sponsor, but a market should include local vendors who sell diverse and unique items representing all cultures, including jewelry, arts, clothing, and seasonal foods. (55405)	Commercial Facilities/Activities
food trucks	Commercial Facilities/Activities

THEME: ACTIVE/PASSIVE

Comments	Active/Passive
<i>Passive Activity</i>	
Senior comment: Views, boats (tour boat), reflect the city	Passive Activity
Personally, I'm not looking forward to a flashy, high use area along the river. I would hope that the area would remain park like, and not built up with homes, large restaurants or other commercial venues.	Passive Activity
Preferred experience of the river: I think the emphasis should be on keeping the atmosphere natural. Nature should be the emphasis; the food venue should be a comfortable shawl to the experience and an ambience where you just want to	Passive Activity
Interest in UHT: I am a taxpayer and resident in a congested city that needs quiet green/nature space as respite.	Passive Activity
Space for relaxation along with the ability to go onto the water.	Passive Activity
I've always found it calming and meditative to walk along it or near it. I used to love seeing the herons that would roost in the trees on a small island near the park north of this location. The trees were damaged and I don't know if the birds	Passive Activity
Suntanning, romantic walks, bike/rollerblading (water access/experience)	Passive Activity
need more casual/takeaway	Passive Activity
Both an amphitheater with park benches ~ on the scale of the Lake Harriet bandshell and buskers for everyday.	Passive Activity
Opportunity for solitary peaceful reflection is a very important aspect of natural spaces.	Passive Activity
Nature, sunset, green space (55345)	Passive Activity
Play area, sports area, places to sit, visit with friends- wifi availability (55412)	Passive Activity
A place where teens can hangout and have fun. Having a park would be nice for people to have a time and moment to study and other things (55411)	Passive Activity
hangout and sit	Passive Activity
places to sit	Passive Activity
Movies, relaxing with friends (55405)	Passive Activity
On a nice summer day, I like to drive down there and sit. (55412)	Passive Activity
places to sit in the park	Passive Activity
Performance and arts+relaxation+market (balance)	Passive Activity
<i>Active Activity</i>	
My proposal is to build an amusement park and have it operated by local young people	Active Activity
A rec center would draw people and invite park use by diverse people. Would like a big athletics focus. Theo Wirth is	Active Activity
Diversity – events that bring different races and cultures together	Active Activity
Interest was expressed in large open spaces that can be available for large events, e.g., an annual soccer event that	Active Activity
Recreational things like courts	Active Activity
Free fitness boot camp for community members with childcare	Active Activity
Multi-use recreation-all seasons.	Active Activity
Preferred experience of the river: Energetic spaces for fun and quieter, natural spaces for relaxation.	Active Activity
Just green/spark spaces don't always bring diverse communities.	Active Activity
o Field space i.e. soccer fields can attract more diverse communities to the river	Active Activity
More green space and draws for use, for example skateboard park, whatever, to draw people out not house people,	Active Activity
A park to me is green open space with room for trails, nature, sport area, grilling and BBQ area, tables, trees for shade,	Active Activity
Make it possible for park visitors to use the river, not just look at it. Needs to include river recreational access, not just	Active Activity

Comments	Active/Passive
The addition of a fitness park (as an example - https://fitness.playcore.com/)	Active Activity
perhaps to include sports/recreation facilities	Active Activity
Park should be highly usable for neighborhood youth not just a big lawn	Active Activity
Use park/other things to do there: I would like to walk, play field, burn energy.	Active Activity
opportunities for biking and playing.	Active Activity
People need to move, sports, anything where you can move your body (55411)	Active Activity
Access to more open programmable public space.	Active Activity

THEME: AGE

Comments	Theme : Age
<i>Seniors (+)</i>	
Fitness options for elderly	Seniors (+)
A place for seniors and kids alike	Seniors (+)
Best waterfront eatery is a picnic along the riverfront among greenery and listening to the falls or the river rushing by, seeing some wildlife or maybesome humans going by in boats. Need to see the water. Set up some nice picnic area. Don't make elder walk a mile to them.	Seniors (+)
I'm concerned about senior citizens - create something for seniors. Seating, and easy ways for them to get to events.	Seniors (+)
A place for seniors and kids alike	Seniors (+)
<i>Youth (-)</i>	
strongly suggest that until the UHT is solidly established, that it not become a youth destination.	Youth (-)
<i>Youth (+)</i>	
Create a youth run bicycle shop!	Youth (+)
A place for people to be able to explore, and space for kids to be able to run	Youth (+)
Playground for autistic kids and accessible	Youth (+)
Playground for kids that have disabilities , autism, etc.	Youth (+)
Something safe and meaningful for little kids	Youth (+)
Make it excisable and appropriate for autism/ special needs children	Youth (+)
More opportunities for kids to Kayak and be on the water	Youth (+)
Kid friendly	Youth (+)
Sports for the kids	Youth (+)
(Points to river overlook near boats) River water feature like Chattanooga. Kids can play in the water in the summer very popular	Youth (+)
Making it entirely available to the youth	Youth (+)
a safe, clean, natural place for children and their families	Youth (+)
a safe, clean, natural place for children and their families	Youth (+)
Multi-use: walking and biking path, boat, canoe, kayak access, docks for fishing Fishing, fishing, more fishing! Teach kids to fish....	Youth (+)
Would be great for the neighborhood to have more swimming and swimming lessons for children.	Youth (+)
interactive museum for children	Youth (+)
More family oriented, small, local mobile food stands or smaller ethnic food choices.	Youth (+)
a safe, clean, natural place for children and their families	Youth (+)
I can see it giving people something to do. Interaction with the community, they should put a play area for children	Youth (+)
I would like to see some multipurpose sports fields. We do not have a decent soccer field for children/youth in north Minneapolis.	Youth (+)
A great outdoor classroom space for local schools.	Youth (+)
Prioritize aras for kids out stay out of trouble and be activated. Sports, little boys and girls specifically, educational, true histories, self confidence, care, and sustainability.	Youth (+)
My proposal is to build an amusement park and have it operated by local young people	Youth (+)
creatively built play spaces for children that incorporate the natural environment	Youth (+)
include play infrastructure	Youth (+)
most importantly a playground	Youth (+)
playground for children	Youth (+)
Park should be highly usable for neighborhood youth not just a big lawn	Youth (+)
A huge play area for kids along with big tire swings. (55411)	Youth (+)
There's not much for teens to do but some type of community center would be perfect (55412)	Youth (+)
I feel like usually there is a pool "area" but for little kids, so maybe like a water park (55405)	Youth (+)
It should be friendly for kids and families. I'd like to see friendly people. I think it will be a cool thing for Northside. (55432)	Youth (+)
Space to hang out with family, park with fun activities (55412)	Youth (+)
A place where teens can hangout and have fun. Having a park would be nice for people to have a time and moment to study and other things (55411)	Youth (+)
A place where teens can hangout and have fun. Having a park would be nice for people to have a time and moment to study and other things (55411)	Youth (+)
kiddie pool	Youth (+)
I'd imagine little stop-off areas for kids to stop and play	Youth (+)
games for kids	Youth (+)
Playground to give the kids something to do	Youth (+)
Like outdoor exercises, must be kid friendly, family oriented as well as a space for picnic volleyball something for everyone	Youth (+)
children activities - less outreach for adults	Youth (+)
whatever attraction is there, make it kid-centered - pool, park, soccer	Youth (+)
a place for kids/kid-friendly	Youth (+)
A pool that kids can play in (1' pool)	Youth (+)
another swimming area for the kids	Youth (+)
It should be something for kids	Youth (+)
there it needs to be a space for young children	Youth (+)
Park amenities – would like to see an adult part next to a children's park. Something for older youth and teens to climb on too	Youth (+)

family-oriented, spend time with kids, swim,	Youth (+)
free activities for kids to do	Youth (+)
Use park/other things to do there: cooking, music, something to take the grandkids to	Youth (+)
free youth programming, movie nights, ice cream social	Youth (+)
No blue rooster, place for kids w/ disabilities, better water, fountain seating	Youth (+)
I think it should be a place for children and families (55411)	Youth (+)
Family friendly (55107)	Youth (+)
Family oriented (55412)	Youth (+)
Big playgrounds for adults and teens (55104)	Youth (+)
Yes I work with young adults, they need outlets and space. Events and space that caters to their needs and resources (55412)	Youth (+)
Accessible space for youth (55406)	Youth (+)
Yes, there should be stuff kids and families (55345)	Youth (+)
Youth sports league (55405)	Youth (+)
Events and game days for kids (55405)	Youth (+)
Summer events to preschoolers (55411)	Youth (+)
Family activities (55107)	Youth (+)
Teen nights (55412)	Youth (+)
Youth programming like basketball camp, beat production, dance battle, art, poetry, community events (55412)	Youth (+)
Things to occupy the youth teen nights.	Youth (+)
For kids, kickball and unorganized sports. Places for kids to play. (55412)	Youth (+)
Youth shelter to keep kids off the street.	Youth (+)
Have youth volunteer and run programs	Youth (+)
Jobs for kids. Apps that connect people to the history and story. Story slams. Poetry, dance competitions. (55412)	Youth (+)

THEME: INDIVIDUAL/GROUP ACTIVITIES

Comments	Theme : Individual/Group Activities
<i>Activities for Individuals</i>	
more activities and beautiful sights to see, keeping it clean	Activities for Individuals
Could you build a climbing wall with the grain elevator?	Activities for Individuals
Add a large, climbing sculpture - like the one at the High Line, NYC	Activities for Individuals
Designed vs. natural water front: Natural, with just enough "design" to make it accessible. Yes, think "individual experiences." Something one or a few people would do on their own, a nice activity, not "group venue" for making money for private enterprise.	Activities for Individuals
This a river not a lake. I see limited use for people to get into or out of the water perhaps canoe Kayake launch I envision a strip of land next to the river to walk bike etc. with a casual environment I don't see a space for large groups of people to gather A boat dock for people to park their boats for the season with small scale retail to support the families park their boats	Activities for Individuals
I want the water to be clean, the river healthy, and the access easy so I can choose my own journey.	Activities for Individuals
Preferred experience of the river: Sitting solitary and reading a good book	Activities for Individuals
Kayaking/canoeing. As a place for people to sit, while writing, reflecting	Activities for Individuals
Something that involves the individual on different levels. Perhaps a boardwalk with historical plaques, a music venue, a sports area	Activities for Individuals
smaller, more intimate spaces	Activities for Individuals
<i>Group Activities/spaces</i>	
Diversity – events that bring different races and cultures together	Group Actitivities/spaces
More inclusion and creative community-generated solutions/place-making	Group Actitivities/spaces
create a safe space for community/public activities	Group Actitivities/spaces
Pleasant place to gather/talk/be active	Group Actitivities/spaces
Bring different cultures in pos. way	Group Actitivities/spaces
Diversity would bring me to the riverfront	Group Actitivities/spaces
A combination - need walking, biking trails but also areas that accommodate larger groups to bring people to the river.	Group Actitivities/spaces
I like the urban edge gathering idea. I think it's important to have places for people to gather. There was a nice park in Denver I visited once on a river. It had a lot of nooks and crannies of gathering spots, picnic areas, etc.	Group Actitivities/spaces
There needs to be large areas where large groups can gather near the river...	Group Actitivities/spaces
Space for schools or businesses to rent or open space for relaxation.	Group Actitivities/spaces
Allow schools to put on shows.	Group Actitivities/spaces
The [Lao] community is also looking for places to host family reunions or cultural gatherings. They'd prefer to have an indoor facility that can be rented, such as a pavilion or a shelter. They would be okay with a place that is sheltered but not fully enclosed.	Group Actitivities/spaces
Relics Park: gathering space, music on the river, ticket sales go back into neighborhood	Group Actitivities/spaces
Walking paths and biking paths, somewhere to fish, somewhere to just hang out with their friends. (55411)	Group Actitivities/spaces
come with friends and kick it, food places close to the park (55411)	Group Actitivities/spaces
Food & hanging out with friends (55405)	Group Actitivities/spaces
Priorities are that it is clean, healthy, family and friend-friendly. I wish we had a cleaner/healthier community! and that people actually cared. / Concerned about violence (55411)	Group Actitivities/spaces
Relaxing with friends, market, food vendors, music (55411)	Group Actitivities/spaces
Use park/other things to do there: picnic, family events, eat, swim, local artists	Group Actitivities/spaces
outdoor family events	Group Actitivities/spaces
Run, places to gather, bike	Group Actitivities/spaces
Places to convene and gather (55116)	Group Actitivities/spaces
Keep the space available to all groups (55345)	Group Actitivities/spaces
I would like to be able to have events and bar-b-ques	Group Actitivities/spaces

THEME: ARTS/CULTURE

Comments	Theme : Arts/Culture
Public art features (Northern portion of UHT)	Yes
Music bandshell or amphitheater	Yes
Art studios	Yes
Sculpture	Yes
Stuff to do/art	Yes
Art	Yes
Add a large, climbing sculpture - like the one at the High Line, NYC	Yes
Add a sculpture and height - 10 stories like at High Line	Yes
What will the impact on wildlife be when you build this? Wildlife needs to be protected. This is shaping up to be a huge mistake that we'll all regret in about five years. It should be about greenery, wildlife, the river -- not money, money, money for a CONCERT promoter!!!!	Yes
I want to bike down, eat food, drink a beer/cocktail/wine/tea/coffee, listen to music, maybe catch a dinner cruise, visit the farmers market, go fishing, see art. That's what Mpls is to me. If we can get more of that closer to the river, that is better.	Yes
use, integrate concrete domes into project. Use lighting(led) to illuminate at night, maybe project visual art onto structures.	Yes
Lake Harriet Bandshell ~ I'd love to see one of those domes turned into a stage. The entertainment is free and you can sit by a pretty lake. The parking stinks.	Yes
Art	Yes
Lots of "make spaces" for people to do art, music, sculpture, electronics, etc.	Yes
Playground, music/theatre/movies in the park. A ballfield would be a nice option. We would probably be in the 1/month ballpark given our proximity to Theo Wirth and Webber	Yes
Public art displays,	Yes
Something like the small sculptures around the Mpls. Fed. I think they were done by Aldo Moroni.	Yes
Walk by it, and have it as part of the landscape during musical performances.	Yes
A permanent stage with open fields might provide the best bang for the buck as more than just music can utilize the space (state of the city speech, private events) while still maximizing the available green space.	Yes
Industrial-themed public art, pedestrian-oriented travel channels.	Yes
Art installations, informational boards/signs with significant events/people/culture of the area.	Yes
Local theatre groups, etc. A scheduled rotation such as at Lake Harriet	Yes
Theater groups! Shakespeare in the park, high school groups, choirs, etc	Yes
Art Fairs,	Yes
Local artists	Yes
Allow schools to put on shows.	Yes
As mentioned above, the city could use it to kick off events, corporations could rent it out for staff parties/events, and programming for city youth during the summer could be centered out of there with a focus on arts and entertainment.	Yes
Community performances	Yes
Movies, live theater,	Yes
Summer theater is one way.	Yes
Impromptu dance party, dance practices	Yes
Live salsa or zouk	Yes
Movie theatre - "drive in" without the cars	Yes
Outdoor classroom, movies in the park, community theater, etc.	Yes
Concerts if amphitheater is there. Also events such as beer tasting, wine tasting, flea markets, food truck events. I would come once per week in the spring, summer and fall.	Yes
Festivals, music events, theater, outdoor movies	Yes
I would not want to see this section of the river become a major entertainment venue location. Small summer concerts	Yes
Q16. Movies in the park, concerts, restaurant, giant games (e.g. capture the flag), cooking classes, pottery like in Powderhorn, etc.	Yes
Large scale music on the river could be great. I'd be on board with an amphitheater similar to the one at Millennium Park in Chicago. Popular bands, orchestra, whatever. I was was pleased when Hall's Island opened up to music, but that is basically a hay field. Having nice facilities, would definitely motivate me to see more music.	Yes
I think a permanent stage is best. When people notice it even when no show is going on they are more likely to look into what events happen there. It would be best if it could be accessible for free/cheap concerts as well as paid concerts.	Yes
Potentially several sizes. Flexible spaces to accommodate various size events. I like the two pictures on the right for larger performances.	Yes
I think to make this a destination space people need to be able to see the acts and have a large space with permanent hillside seating and accommodations for electrical and sound requirements for larger acts.	Yes
I would hate to exclude impromptu performances by solo musicians, but I think permanent stages get a lot of use and can be beautiful.	Yes
Large scale amphitheater Love the idea of the Minnesota Orchestra performing there.	Yes
Permanent stages with fields for gathering. It would be nice to have music, theater, etc. going on simultaneously. I think an amphitheater would be too loud for the surrounding neighborhoods (this isn't the Gorge).	Yes

Comments	Theme : Arts/Culture
The space could allow for a pretty large scale, but I would like to see a variety of uses available (picnic/playground) I would envision a scale similar to the Harriett bandshell. Permanent stage with moderate open field space - amphitheater would be great, or an permanent over water stage. Build it, we will come.	Yes
Uses a medium elevated stage that can be used for performances	Yes
We need a performance space that would serve 1 or 2 thousand people regularly. It would be good to have a site like Lake Harriet where there are performances every night during good weather. The idea to have concerts of 10,000 would be nice but I don't think the permanent seating should be that large because that would probably limit the use of the site for other activities, and there would probably not be enough large concerts to justify the loss of so much space that could be used for other activities. However, if it is built as a structure rather than just built up earth, there could be amenity businesses housed under the seating. There may be a way where the seating area (if the seats were removable) wouldn't use up too much space that could be used for other activities and could be used some way in winter for sledding. etc If we could get regular crowds of 10,000 and it could be places in an area that would not interfere with maximum use of the area it would be okay. However, if there are charges it might greatly cut into the number of Northsiders who could use it regularly.	Yes
I hope that any musical venue development would be scaled to aesthetically contribute to the natural riverfront, and not overwhelm it. That goes for any of the developments that would occur in this place. I think the first two pictures represent a smaller venue idea, but because they are in the midst of cement and urban backgrounds they do not fit. Small, but natural would be ideal - somewhat like the setting on Nicollet Island. The third image is best, but a bit too developed outside of the music venue area. The final picture, with the huge metallic sculptures is atrocious!	Yes
Impromptu performances by solo musicians. Music as the main attraction, will support other establishments. See, Saint Anthony Main.	Yes
Love the idea of an amphitheater that could serve multiple purposes - music, plays, speakers, and other performances etc.	Yes
music venue seasonal minimum wage jobs is not what North Minneapolis needs	Yes
We have no access to river in most of northeast Minneapolis. I would like to drive across Camden Bridge and be able to enjoy some non-industrial site, not overly programming like this debacle appears to be headed to be. Hideous decision you have made. At most, I could accept no major infrastructure but programming for small-scale acoustic music only. Something all ages could enjoy and access. Not the crap First Avenue brought to Scherer. And no alcohol or food trucks. If you want some concessions, to it like the place at Minnehaha, not some diesel-fumed meat-centric, environmentally ignorant offering from a truck.	Yes
Whenever there is a performance	Yes
dog park, multi-use fields, biking, walking, drive, ice skating while a concert is happening,	Yes
shows	Yes
love idea of arts and crafts markets and green space. Mental health and green space are very important.	Yes
Kayak down the river, hop on/hop off to see + visit shops, restaurants, art (example of Milwaukee)	Yes
Relics Park: gathering space, music on the river, ticket sales go back into neighborhood	Yes
Four pillars: Historical preservation, Arts and culture, All things ecological, Food and urban farming	Yes
Four pillars: Historical preservation, Arts and culture, All things ecological, Food and urban farming	Yes
Four pillars: Historical preservation, Arts and culture, All things ecological, Food and urban farming	Yes
sculptures depicting Native Americans, and other historical uses of the land like the lumber industry.	Yes
Music/art events can start on the site in its current state w/minimal site improvements to build community buy-in and participation. The first Jamming for Justice was put together very quickly by a dedicated group, and was very successful and positive.	Yes
Strive to integrate organizing principles of art & culture	Yes
Honor indigenous/stolen land and invite the local indigenous community members to inform the design on their terms, as it relates to history, current indigenous art/cultural practice, connection to water/the river, fossil fuel extraction projects and impact on indigenous people (Enbridge's Line 3 project) etc. Acknowledge: This is Dakota Land and Anishinaabe territory.	Yes
Park trails, parks, art museums, theaters (55412)	Yes
We should have art we can play on and all we really have is basketball. (55412)	Yes
They want to have art everywhere and a farmers market. (55411)	Yes
They want to have art everywhere and a farmers market. (55411)	Yes
art	Yes
Liked the graffiti on the domes (55405)	Yes
Farmers market, fruits/vegetables and food, art	Yes
Use park/other things to do there: picnic, family events, eat, swim, local artists	Yes
I would love to see a space where local artist can come and express their art work legally on a free wall for the community. there needs to be art.	Yes
plays	Yes
outdoor movies/movie theater	Yes
Socially relevant to issues our community faces. Artists who reflect the struggle (55412)	Yes
Programming, arts / athletics (55412)	Yes
Youth programming like basketball camp, beat production, dance battle, art, poetry, community events (55412)	Yes
What would make it best for North would be live music, local artists, flower garden, and history. (55443)	Yes
Sculpture park	Yes
I think it should be a place for everyone: arts, music, sports... (55404,55408,55401,55411,55306)	Yes
Huge sculptures from local artists	Yes
Want to see art like sculpture garden	Yes

Comments	Theme : Arts/Culture
I think it should be a place for everyone: arts, music, sports... (55404,55408,55401,55411,55306)	Yes
I'd like to see a mix of performance and art, relaxation and market. (55443)	Yes
What would make it best for North would be live music, local artists, flower garden, and history. (55443)	Yes
Performance and arts+relaxation+market (balance)	Yes
Something that shows the local support for the arts would be welcomed. Including students from Perpich Center for the Arts and MCAD in the creation would be great. Showcasing the beauty of appropriate and sustainable landscaping along the river would also be great. Involving the Arboretum for that would make me proud.	Yes

THEME: RIVER USE

Comments	Theme : River Use (Yes/No)
<i>No</i>	
This a river not a lake. I see limited use for people to get into or out of the water perhaps canoe Kayake launch I envision	No
Beach area: unnecessary as not many people will come to swim in the river. Also, as a water safety issue, the river would would stay away from the river	No
<i>Yes</i>	
Want to travel in a boat and be able to dock where you can fish	Yes
Natural shoreline and touch the water places	Yes
Canoe, paddleboard rental	Yes
Experience and Access the River: Boating, fishing, swimming	Yes
Experience and Access the River: Canoe, kayak rental	Yes
Experience and Access the River: Beaches for boating	Yes
Experience and Access the River: Touch the water	Yes
River-related/river enhancing jobs	Yes
Experience and Access the River: Boat races	Yes
Senior comment: Views, boats (tour boat), reflect the city	Yes
Fishing / kayak access / marina	Yes
Boat house for racing, rowing, boats (Northern portion of UHT)	Yes
Kayaking	Yes
River access, activities and experience for swimming, rowing, canoes	Yes
Battle boats	Yes
Connect canoe and kayak to other public water ways	Yes
Fishing piers- for folks who don't home boat	Yes
Riverfront multi-destination with lots of choices including River access, activities and experience	Yes
Fishing	Yes
The river brings me to the river: space to enjoy it is sometimes blocked	Yes
More chances to get on the water for people who don't have their own boats.	Yes
More opportunities for kids to Kayak and be on the water	Yes
River walks	Yes
Kayak/ canoe rentals	Yes
Marina	Yes
Incorporate history (in the waterfront)	Yes
(Points to river overlook near boats) River water feature like Chattanooga. Kids can play in the water in the summer very popular	Yes
More river related activities	Yes
River related activities boat, swim, fish, river enhanced activities, restaurants, hotels, boats rentals, bike rentals	Yes
Waterfront access in a mainly natural environment	Yes
Designed vs. natural water front: Designed would be great but there should be waterfront activities - fishing areas, boating areas, etc. similar to hidden falls area	Yes
Better access to the river. Better access to passive green space.	Yes
Waterfront access in a mainly natural environment.	Yes
Interest in UHT: Creation of public connections to the riverfront, creation of natural connections of North Minneapolis to the river and to downtown along the river corridor.	Yes
Clean access (water access/experience)	Yes
Whats thewater quality in the area? Could it be used for recreation or are built environments that use the river as a design feature better suited? From the little I know of the area, I would like to see a more casual environment that invites people to the rivers edge to gather and even some recreation.	Yes
I would pay for river access like a boat ride, kayak rental for novices, Wilderness Inquiry type of outing.	Yes
A small harbor, with space for boats would be amazing. North and NE have less access to lakes and water access than south Minneapolis does. Access to water is something that I feel defines Minnesota, and providing that access would be very valuable for the neighborhoods surrounding this new park.	Yes
As many opportunities to be close or on the water.	Yes
I think there should be water access for kayaking, canoeing, paddleboarding, as well as a marina docking space to accommodate power boats.	Yes
be able to Practice gymnastics, do a cartwheel and jump in the water	Yes
Waterfront access in a casual environment	Yes
Whatever is chosen, there should be affordable options. Can you imagine a single mom bringing her 4 kids to the river and trying to spend \$12-15 each on a meal that won't even fill you up? (This was my experience growing up.) Food trucks are spendy, mobile food stations might make more sense as it allows you to flex the amount of space for events. Food courts and restaurants should be a part of it, but possibly a block away as to not take away from the recreation opportunities near the water.	Yes
Interest in UHT: Promixity and it's a park along the Mississippi - Mpls Parks are the best!	Yes
Interest in UHT: Water priority	Yes
no, but would love to see it more connected to the rest of the river through parks/paths/water activities, etc.	Yes
excited about it [park?] being large. Being near the water is important to well-being.	Yes
Being near the water is important to well-being.	Yes
Need swimming space. If safe for kayaking, is safe for swimming.	Yes
feel a pier would greatly benefit the community	Yes
Areas closest to river should be reserved for people/nature versus cars further from the river	Yes

Comments	Theme : River Use (Yes/No)
Kayak down the river, hop on/hop off to see + visit shops, restaurants, art (example of Milwaukee)	Yes
Pool barge, a bar barge	Yes
Boat building and dock	Yes
Build steps down river seawall to provide fishing access near CPAC	Yes
River access near amphitheater	Yes
Riverboat and access to the river	Yes
River access, activities and experience	Yes
I would like to see more land set aside for park, wildlife, green space, and access to the river.	Yes
Would like to see a fishing pier.	Yes
(southern half of the site) open PARK with access to river	Yes
I wonder if there is any room for a marina of house boats, too.	Yes
(Southern half of the site) Create a canoe and boat launch site.	Yes
access to river activities such as canoe and kayak rentals	Yes
Create Public boat slips. Kayak lockers or some soft of way for kayakers to temporarily store their kayaks while enjoying UHT	Yes
Make it possible for park visitors to use the river, not just look at it. Needs to include river recreational access, not just river viewing. (Docks, ramp, etc.)	Yes
opportunity for water ski show site	Yes
River access, activities and experience for paddlers is important.	Yes
Will there be river access for boaters, kayakers, etc.? Will there be any open green space for any type of athletic participation? Fishing docks? All would be good for the users of the park.	Yes
Would also like to have actual access to the river to launch/dock	Yes
The river should be central to all planning for park space.	Yes
We (Northsiders) want the same things that people in other parts of Minneapolis want - beautiful spaces, access to the water, places to eat... an all-naturalized space (like in the Above the Falls master plan) is not ok	Yes
One way I would like to experience the river is we should have a walkway across the river	Yes
Be able to go fishing with my family	Yes
Walking paths and biking paths, somewhere to fish, somewhere to just hang out with their friends.	Yes
Fishing is a big deal to them and they feel like that if they have somewhere to fish they would hang out all day	Yes
Loved kayaking and would do it again	Yes
Possibly swim (if that's possible), be able to have more docks	Yes
Ways to access the river: walking/biking paths, sitting, direct access to water	Yes
Ways to access the river: boating and fishing activities, I'm not swimming in no river	Yes
beach	Yes
boating	Yes
boating, jet ski, dock access	Yes
canoeing	Yes
canoeing	Yes
fishing	Yes
Ways to access the river: definitely a fishing dock or something to do with fishing	Yes
Ways to access the river: fishing, recreational stuff	Yes
Ways to access the river: walking path, biking, no cars, intimate space	Yes
Park with access to the river would be good	Yes
Better River access, activities and experience: Fishing and boating dock.	Yes
canoeing	Yes
I want to be able to boat, jet ski, swim, kayak, canoe in the river. A beach area where there isn't anything separating the land from the water.	Yes
Sit in a tube and watch a movie.	Yes

THEME: ACCESS

Comments	Theme : Access
auto, bike, walk	Yes
I usually bike or walk, but I notice that many people drive to North Mississippi Regional Park. It is a destination area, because it is so nice and so wild.	Yes
Lakes are a biking destination on a long ride, but I also frequently drive to the park to walk and dine there and in the neighborhood.	Yes
walk, bike, drive - Trails to these destinations from the neighborhoods are essential. However, need public transportation and the ability to drive in. This new development should draw people from all over to come and spend their money and enjoy the Northside	Yes
By bike, by public transit. Most people drive.	Yes
Car	Yes
drive. but needs bus routes to serve North Minneapolis	Yes
I drive (yes, I'm one of them) and if I can't park I leave ~ a parking ramp that's cheap, between the freeway & Washington (leaving the riverfront open for parks, retail & entertainment) will help bring suburbanites. When Metro Transit is simple, I'll also use that ~ like, if it goes within a block or two of my destination.	Yes
I now have to drive and do it seldom having moved from NE to White Bear Lake. I used to drive or bike.	Yes
Sometimes I bike and sometimes I drive. Most people drive to get there except for those who live very close.	Yes
drive	Yes
I drive once I'm that "far" north, but coming from S. Mpls, I'd have to transfer at least twice to get to that area. N. Mpls has long been underserved with connections to other parts of the city.	Yes
Once, when I went on a boat ride with someone that lived on the river and had a boat. Most people will drive their car.	Yes
The River needs to be viewed not just as an amenity, but with its historical function as a transportation artery. Parking of private vehicles should not drive the development strategies for future phases. Water taxi service on the river, and shared vehicle pools are better alternatives.	Yes
On a nice summer day, I like to drive down there and sit. (55412)	Yes
Most now are by car, walking, or bicycle. I think opening up lock and improving boat access would be great.	Yes
As someone who would walk/bike to this park I think that making safe pedestrian and bike lanes across Dowling should be a priority not an "if we have enough money" item. The bridge right now is completely unsafe for bikes/pedestrians	Yes
Bike path to downtown. Walking paths.	Yes
Bike, walking, parking	Yes
Can there be some planning for connecting 26th Avenue North to the bicycle and walking trails along the river.	Yes
walking and biking to the river, paths that stop traffic	Yes
Walking/biking.	Yes
Ways to access the river: safe walking trails, bike racks/parking	Yes
Boat taxi but with activities on it, you could pay with your Metro Transit card. (55404,55408,55401,55411,55306)	Yes
Frequent transit to north/NE/downtown Mpls, inc. for evening events/businesses	Yes
Bicycle, scooter	Yes
Bike	Yes
bike or vehicle	Yes
Car, bike, boat.	Yes
I use a car. Most people use a car to access this area. Needs to be accessible to all ages and abilities, including elders who need to use cars.	Yes
It would depend on the musical offering but if the bicycle connections to my neighborhood to the west and securing my bike were simple and clearly defined, I would attend often. However, if I had to deal with parking (because natural connections to the neighborhood were not established) I would be less likely to attend.	Yes
I've lived in Camden since 1969 and Upper Harbor was always an off-limits place. It always felt "we the people" weren't allowed to go near the river ~ and I've always hated that. Adding I-94 separated it more, it became the industrial zone. Having more buses on Dowling & Lowry that go to Second St and a bike & pedestrian path with a NON-MOTORIZED bridge over the freeway somewhere in the middle (34th - 36th) would help make feel like part of the neighborhood.	Yes
Mostly by car and transit. Should be accessible by bike and on foot, to some degree.	Yes
Bike!!! (26th Avenue North)	Yes
Make accessible to all with transit	Yes
(Points to non-specific area south end of site) Cut down car traffic more bike lane and public transportation	Yes
A bike path along Dowling would make it more accessible. Also this is a amazing - super excited - thanks for the survey!	Yes
A recommendation that the site should be tied into the overall City bike plan	Yes
Also would need to keep parking cost cheap or zero. Paying for parking at public parks is offputting. Charge nonresidents for it or more than you charge residents. Seems only fair.	Yes
Bike and car. Minneapolis public transit sucks.	Yes
Bike car, we live off Dowling & Penn and Dowling is not great for biking, so most likely car. I'm not aware of a bus running down Dowling, that would be a nice option too. Also bike share (although stations are lacking in NOMI)	Yes
Bike connection	Yes
Bike paths, less car access, ped/bike bridges across river	Yes
Bike trail - one across river, too	Yes
Car, bike, or bus. I think people use all modes of transportation to get to these destinations.	Yes
east transit access,.	Yes
easy bike access.	Yes
Encourage Nice Bike	Yes
Ferry back and forth, water taxi.	Yes
Good connections: Bike, Ped Transit	Yes
Grass pedestrian bridges	Yes

Comments	Theme : Access
How will people get there (boats, peds, bikes, cars, public transit, wheelchair & other mobility devices)? Anticipate new mobility options & prioritize the future of transport	Yes
Interest in UHT: Bike ride-able	Yes
It might need to be longer term/phase 2- but it'd be great if there could be a light rail stop at the park to ensure easy public transportation access.	Yes
Make sure to include a large number of bike racks, a dedicated space for taxis and ride shares, and possibly offer a discount or priority lot for carpoolers. Cars are not a priority.	Yes
Need Transit	Yes
Pedestrian/bike access needs to be improved. Dowling is too dangerous due to heavy traffic	Yes
Put the trail in all the way to downtown ASAP	Yes
Safe and efficient transit is an absolute must and should always be considered during planning stage	Yes
Safe transportation, like a shuttle bus. (55404,55408,55401,55411,55306)	Yes
Something to use the river like a corridor (like the water taxis in Chicago) (55411)	Yes
Ways to access the river: bike	Yes
Will transit visit this site? How about a water taxi/ferry for commuters?	Yes

THEME: CONNECTIONS

Comment	Theme: Connections
connection to trails, lakes, pedestrian/bicycle recreation. Better public transit connections would improve access.	Connections
Easy access off 94 (once the road work is done).	Connections
I used to work at West Broadway and Dupont. One of my favorite things to do in the summer was to meet people for picnic lunches at the park in front of MPRB. Even with the park there and being only a mile away, driving often would take 10-15 minutes and biking did not feel safe. With usually only a 30 minute lunch, it wasn't often feasible to take advantage of the Mississippi River park.	Connections
It would depend on the musical offering but if the bicycle connections to my neighborhood to the west and securing my bike were simple and clearly defined, I would attend often. However, if I had to deal with parking (because natural connections to the neighborhood were not established) I would be less likely to attend.	Connections
I've lived in Camden since 1969 and Upper Harbor was always an off-limits place. It always felt "we the people" weren't allowed to go near the river ~ and I've always hated that. Adding I-94 separated it more, it became the industrial zone. Having more buses on Dowling & Lowry that go to Second St and a bike & pedestrian path with a NON-MOTORIZED bridge over the freeway somewhere in the middle (34th - 36th) would help make feel like part of the neighborhood.	Connections
Mississippi park	Connections
Most seem to be on the other side of the river now. More access by boat would be a benefit.	Connections
Preferred experience of the river: Bridge across the river	Connections
Successful destinations in the area: Camden Park/Library Development, Greek Restaurant in "downtown" Camden, North Mississippi Park	Connections
The city should also either purchase or acquire a strip along the river that would connect this new area to the existing NMRP so people can flow between the two	Connections
The Upper Mississippi Regional Park and the attached Webber Park are important destinations which draw people to the area. However, they need more parking and signs along the highway.	Connections
They also need more publicity.. However, the new "natural" pool at Webber probably does not need more users, at least on some days.	Connections
Theo Wirth Park, Victory Memorial Parkway. Nature, bike trails, live music (on the parkway).	Connections
There should be a ped mall/bike area that links the neighborhood to the river and slows traffic. Cars should be included but the mall should be European style so it drastically slows car traffic.	Connections
Better access along Dowling	Connections
Better access along Lowry	Connections
Better access along St. Anthony PKWY	Connections
(Along river near #12 furthest left/south in plan) continue the bike path? With arrows going N and S along river (Points path to the right of stage) What level of street activation to "bridge" between highway and riverwalk? - Pursue boulevard features and functionality to leverage significance of this corridor (more than the river should create "place")	Connections
... with a look towards to connecting northern park.	Connections
A bike path along Dowling would make it more accessible. Also this is a amazing - super excited - thanks for the survey!	Connections
A cool station that ties into Downtown	Connections
Access to the west	Connections
and there should be an aim to find a way to connect it to the rest of the river front to develop a continuous unblocked pathway from north to south.	Connections
As someone who would walk/bike to this park I think that making safe pedestrian and bike lanes across Dowling should be a priority not an "if we have enough money" item. The bridge right now is completely unsafe for bikes/pedestrians	Connections
Bike connection	Connections
Bike path to downtown. Walking paths.	Connections
Bike trail - one across river, too	Connections
Bike/ped trails from Dowling to Ole Olson is critical for Phase 1.	Connections
Can there be some planning for connecting 26th Avenue North to the bicycle and walking trails along the river.	Connections
Can we connect to West River Parkway too?	Connections
Connect the riverfront property to the east of the city	Connections
Connect to North Mississippi Regional Park	Connections
Connect to Victory 44, Webber Pool, Northeast Breweries	Connections
Connect to Wirth Park, east/west corridors, downtown, and N Mississippi Regional Park	Connections
Connected bike paths	Connections
Connections need to be made from these proposed sites to parks across the Interstate and river that would tie this whole thing together; connections for foot and bike traffic to Perkins Hill Park to bike path and to Terrace Park over river to bike paths. This way there is another connection besides Dowling Ave, which a really poorly planned idea.	Connections
Connecting parks on each side of the river and highway to the ones being proposed helps in having access that you never have to be outside of a green space via walking or biking.	Connections
Dowling Ave bridge improvements are key to connecting the space to the community	Connections
Ensure safe, inviting connections to neighborhoods	Connections
From Dowling to about 36th, I think a promenade would be nice ~ it would encourage people to move in all directions in the area around the amphitheater. From 36th to Lowry, narrow the	Connections
walk a bit and have a natural edge. From Dowling to North Mississippi Regional Park, paths similar to what's already in the park would integrate the two. I'd to see the city acquire the entire riverfront (just 50' - 100' width) and have paths enabling people to walk or bike the riverfront from one end of the city to another.	Connections
Grand rounds bike path - this should be connected for bikes to existing pathways!! People like to explore the city!	Connections
Grass pedestrian bridges	Connections
Have trails and connect to other trails (55411)	Connections
I like that there are Northside connections	Connections
I think you need more connectivity with Nomi and NE.....this spot is downhill from Nomi and not near a bridge to NE. It's sort of a dead end and you have no plant to connect either community in a meaningful way to the site.	Connections

Comment	Theme: Connections
I would like to see some verification included in the plans to guarantee that the new improvements will connect bike/walking paths from the North Regional Park with the paths at the riverfront area near Broadway Ave. to the south.	Connections
Is the only access to UHT at Dowling Avenue? What does this do to connect and make the park accessible to people closer to Lowry and other walkable points?	Connections
It has to connect to the Grand Rounds or other bike trails. It is critical that you can EASILY bike and drive to/from Northeast and Downtown.	Connections
it'd be great if there could be some type of elevated board walk over the river that could be a shared use path that connects Ole Olson Park with Upper Harbor trails. Connecting Upper Harbor river front with Ole Olson should be in Phase 1 in some form....The trails are the most basic element and should be done for baseline connectivity...this could be an oonerf too or some type of bike/ped facility.	Connections
Linear park will need a place to loop until the north-south connections are made, if not then it will not be used.	Connections
Linear path to other parks	Connections
Link up to other regional/resources	Connections
more biking and walking paths that connect up with the paths south of Broadway	Connections
More connection with the neighborhood - think the way Duluth did 35N	Connections
More green space along Dowling so that it is a "gateway" to the site, connects with themes of water systems infrastructure (rain gardens and pervious road materials) to the river. This is the main entry point to the site and could be more interesting, think public plaza/street scape	River access, activities and experience
Most particularly, bicycle connections to regional trails and to downtown. I'd love to bike to UHT, grab lunch or coffee on a Saturday, and head out on a bike ride to Minnehaha Falls along a unified river parkway, or grab a cup of coffee on a Monday morning as I begin my bike commute to work downtown.	River access, activities and experience
Need more clear/comprehensive paths from neighborhoods, access points	Trails
Off street trail/ to downtown	Trails
One way I would like to experience the river is we should have a walkway across the river (55411)	Trails
Parks have trails and often connect to other trails (55411)	Transportation
Pedestrian/bike access needs to be improved. Dowling is too dangerous due to heavy traffic	Transportation
planned north connection to Webber Parkway would connect the two parkways and help create an important link into the north Minneapolis neighborhoods across I-94. In exploring this idea, we found there are only two parcels to the north of the site, one of which is already owned by the City, so the connection is feasible and should be explored in this planning process.	Transportation
Put the trail in all the way to downtown ASAP	Transportation
Safe approach from Dowling Ave.	Transportation
Some of the open park space needs to extend over to I-94, both to facilitate a future ped-crossing of the freeway, and so the park is visible to passing traffic.	Transportation
The Broadway Ave and the surrounding North Minneapolis neighborhoods. Better links to public transport to and thru the park.	Transportation
The Dowling connection is critical it should be a priority	Transportation
The park further North was a destination for me before it was developed and afterward.	Transportation
The riverfront needs easier access from the Northside area between Lowry and Dowling.	Transportation
Try to make them connect- a corridor	Transportation
We support the development of the parkway, but feel as though the connections to the north and south must be well understood and planned for.	

THEME: RELICS

Comment	Theme: Relics
<i>Exclude</i>	
level the relics - not a history to preserve	Exclude
I do not like the restoration of the industrial elements. I believe they are relics of the past and signs of the environmental destruction that occurred on this site for far too long. I do not understand keeping these and am definitely in favor of their removal.	Exclude
The relics should be removed. They are obstacles for building and also represent another failed Federal Gov subsidy for jobs.	Exclude
Industrial relics should leave, replace with carnival, parks, food places.	Exclude
<i>Would Like</i>	
As rule I like natural, but this area may be better suited to a designed area because of its industrial past. Would be interesting to tie in the old with the new.	Would Like
Lake Harriet Bandshell ~ I'd love to see one of those domes turned into a stage. The entertainment is free and you can sit by a pretty lake. The parking stinks.	Would Like
I love the industrial features on the site. It would be interesting to bring back some of the agricultural history as well.	Would Like
use, integrate concrete domes into project. Use lighting(led) to illuminate at night, maybe project visual art onto structures.	Would Like
People enjoy the maintained relics from original UHT site	Would Like
Love the relics park.	Would Like
Domes! Recording studio (see The Tank in Colorado)	Would Like
Keeping/reusing the relics sounds good.	Would Like
Keep the industrial feel to the park. There is sculptural beauty to the relics.	Would Like
Similar to Mill Ruins, much of the older development of the site is likely large, concrete and steel and difficult to remove. Celebrate the architecture of the site in the new design.	Would Like
Use the old silos as an indoor area	Would Like
Liked the graffiti on the domes	Would Like
Keep one dome and let people do graffiti on it. Have artists do some of it, and then people can take a short class and then be able to write on it, too	Would Like
Make the domes a tourist site, with a big garden with a fountain	Would Like
<i>Wouldn't Like</i>	
Strive to integrate organizing principles historical preservation	Wouldn't Like
at least one person did not think the domes or any other structures are worth saving.	Wouldn't Like
Why would we want to preserve industrial history?	Wouldn't Like
there's no need for a Relic Park	Wouldn't Like
The industrial relics provide an interesting opportunity to interpret the history of the site, but we do not view preserving them in their current state as integral or necessary. We think there is a lot of leeway in how they can be re-used, re-purposed or even re-interpreted elsewhere on the site if necessary. For example, the domes could be cut down to create rings within which events and activities could occur and could add additional green space.	Wouldn't Like
Prefer that the "industrial heritage" is not prioritized. The industrial heritage tells of a history of corporate agriculture, pollution of water (fertilizer domes), chemical farming/industrialization of our food chain, and decreased ecosystem/food crop diversity. Bridge the connection to neighborhoods, as some community members feel that UHT is not "their neighborhood." When in actuality approximately 10 neighborhoods are only a mile or mile and a half away.	Wouldn't Like
The domes are strange, but we could see them being used for artistic purposes/graffiti/ indoor activities.	Wouldn't Like
